

Panel
Blind
Collection

creative spaces
window shades & room dividers

The versatile and contemporary way to control light, glare, view and privacy in both domestic and commercial installations.

The panel blind is the new and innovative shading solution **for larger windows and patio doors** that look fabulous in both contemporary and traditional interior design schemes.

Also stunning as a **stylish room divider**, the panel blind is available in a diverse range of colourways and designs prevalent to today's busy lifestyle.

What makes the panel blind so **unique** is the wide panels that reflect and filter daylight so effectively.

When open, the panels stack neatly behind one another allowing maximum light into the room. Sliding the panels into the closed position creates a complete fabric screen providing **light control** and increased **privacy**.

Available in natural looking fabrics, screens and faux suedes, panel blinds will transform the look of any room with its cultured, sophisticated appearance.
